1	Panasonic Autoclave MLS-3751-PK is not available. Alternative model exactly matching is Model MLS-3751L-PE (product sold in asia). Please clarify the correct model from both.	The newly quoted model (MLS-3751L-PE) is suitable for our use.
2	Thermo Scientific Sorvall Legend Micro 17 Micro centrifuge matching Maldives Voltage is Part No: 75002430, not 75002431 as mentioned in your item list.	We quoted items with the catalogue numbers so that a model with the specifications we require would be delivered. However, for some items the voltage information was not available when we checked. We would require all electrical equipment to have voltages that match with Maldives voltage availability... so please go ahead and get the model that suits our electrical requirement.

7	Thermo Scientific Cimarec +stirring Hotplate SP88857105 is cheaper & wider than SP88854105. Please clarify if SP88857105 is acceptable.	We checked both equipment. The item we mentioned had a width that was good enough for our work. Please go ahead and procure the item we specified (SP88854105).
8	Thermo Scientific Histostar Embedding Workstation A81000004 is a part number of an accessory. Entire equipment Part No is A81000001. Please clarify correct number.	The complete system was what was intended. Was a mistake on our side.
