- Answer for the queries raised are given below

#	Bidder's Query	Response
1	It is understood that all necessary surveys required for successful execution of the project shall be carried out by the contractor and the consultant will provide only the technical specifications for the same. The authority is requested to clarify the same.	Yes, that is correct
2	The authority is requested to consider detailed design of ports and harbour projects in addition to construction supervision projects as similar assignments, as the scope involves proof checking of design submitted by the contractor.	Design of ports and harbours alone cannot be considered as similar assignments. Bidder should demonstrate they have carried out supervision of the designed works as well
3	The authority is requested to consider a minimum of 1 similar assignment or combination of one or more similar assignments satisfying the value of USD 1000000 within last 5 years. As PMC are projects are generally long-term projects, the TOR requirement of 4 PMC projects within 5 years is difficult to satisfy.	1 similar assignment worth USD1,000,000 or 4 similar assignments worth USD 250,000 each, within the last 5 years is acceptable
4	The authority is requested to clarify whether the total duration of 24 months includes both pre-construction and post construction work activities.	Duration of 24 months is preconstruction 6 months period and construction 18 months period
