

Item No.	Item description and full technical Specification required (including applicable standards)			Quantity
1	Drill	Corded drill with adjustable speed (500-3000 RPM) and torque settings for versatile use in woodwork and carpentry. Suitable for drilling holes up to 10mm in wood and 6mm in metals.		6 Nos
2	Jigsaw	Corded jigsaw with adjustable orbital settings, 500-2800 SPM variable speed motor, and tool-free blade changes. Ideal for curved and intricate cuts in woodwork and woodworking projects.		4 Nos
3	6-inch Circular Saw	Corded circular saw with adjustable cutting depth (up to 2.5 inches) and bevel angles (0-45 degrees). Equipped with a powerful 1200W motor for smooth wood cutting.		2 Nos
4	Electric Drill Set Combo Kit	Comprehensive kit includes a corded drill, various drill bits, screwdriver bits, and accessories for drilling, screwing, and fastening tasks.		2 Nos
5	Angle Grinder 4 inch	Compact angle grinder with a 750W motor, adjustable speed (3000-11000 RPM), and spindle lock for easy accessory changes. Ideal for grinding, shaping, and polishing in woodwork.		6 Nos
6	Disc Sander	Electric disc sander with a 5-inch sanding disc, variable speed (500-1700 RPM), and dust collection bag. Perfect for surface preparation and shaping in woodworking projects.		4 Nos
7	Sander Machine	Versatile sanding machine with adjustable belt speed and tilt (0-90 degrees). Equipped with a 1200W motor for efficient material removal and fine finishing.		4 Nos
8	Polisher	Electric polisher with a 1400W motor, adjustable speed (600-3000 RPM), and included polishing pads for achieving a high-quality finish in woodworking.		2Nos
9	Chisel 1/2" , 1" , 1.5" , 2" , 3"	High-quality chrome vanadium steel chisels with ergonomic handles. Designed for precise wood carving, shaping, and detailing in carpentry and woodworking.		5 Nos each

10	Rubber Mallet	Non-marring rubber mallet with a durable fiberglass handle. Ideal for shaping and adjusting wooden components without leaving marks.		2 Nos
11	Scraper 1" , 2" , 3" , 4"	Assorted scrapers with high-carbon steel blades for effectively removing old coatings and preparing wood surfaces for refinishing.		5 Nos each
12	Try Square	Precision aluminum try squares with accurate 90-degree and 45-degree angles. Essential for measuring and verifying angles in woodwork and carpentry.		20 Nos
13	Hand Saw	Traditional hand saws with induction-hardened teeth for smooth wood cutting. Equipped with comfortable handles and various blade lengths for versatile use.		20 Nos
14	Spirit Level	Bubble levels with aluminum construction and accurate vials. Designed for ensuring level and plumb alignments in woodworking projects.		6 Nos
15	Chain Saw	Corded chainsaw with a 14-inch bar length and powerful 1800W motor. Suitable for cutting larger wooden pieces for woodwork and carpentry.		2 Nos
16	Corded Electric Impact Driver	High-torque impact drivers with adjustable torque settings and variable speed triggers. Delivering up to 2500 RPM, ideal for driving screws and fasteners in woodwork.		6 Nos
17	Claw Hammer	Standard hammers with fiberglass handles and curved claws. Designed for general carpentry and woodworking tasks.		20 Nos
18	Ball Peen Hammer	Ball peen hammers with hardened steel heads for shaping and riveting wooden parts. Equipped with textured grips for precise control.		20 Nos
19	Laminating Roller 4" , 2"	Durable nylon rollers with ergonomic handles. Suitable for applying adhesives and laminates in woodwork and carpentry.		5 each
20	2-Ton Chain Clock	Heavy-duty 2-ton chain clocks with adjustable lifting heights and durable construction. Used for lifting and positioning heavy wooden components.		5 Nos

21	Portable Adjustable Gantry Crane	Portable gantry crane with a 1-ton lifting capacity and adjustable height. Equipped with casters for easy movement within the workshop.		1 Nos
22	3-Ton Trolley	Heavy-duty trolley with a 3-ton weight capacity. Ideal for transporting heavy wooden materials and components in the workshop.		1 Nos
23	Feeding Unit for Cutting Fiber Mat	Specialized feeding unit designed to assist in cutting fiber mats accurately and efficiently for composite work.		1 Nos
24	Drum Truck	Wheeled drum truck for easily transporting heavy wooden drums and containers within the workshop.		1 Nos
25	F Clamp 12", 18", 24"	Heavy-duty F-clamps with adjustable clamping capacity and ergonomic handles. Used for securing wooden components during gluing and assembly.		20 each
26	G Clamp 12" , 18"	Robust G-clamps with adjustable clamping capacity and swivel pads. Suitable for holding wooden parts together during carpentry tasks.		5 each
27	Blower	Electric blowers with variable speed settings. Used for clearing sawdust and debris from woodworking surfaces.		4 Nos
28	Industrial Exhaust Fan with Horse 12-inch	High-performance exhaust fan with a 12-inch diameter for effective ventilation in the woodworking workshop.		2 Nos
29	Heat Gun	Variable temperature heat guns for stripping paint, bending wood, and other woodworking applications.		2 Nos
30	Air Compressor 200L	High-capacity air compressor with a 200-liter tank and 3 HP motor. Suitable for powering pneumatic tools used in woodwork and carpentry.		1 Nos

31	Digital Scale	Precise digital scale with a capacity of 50kg and accuracy to 10g. Ideal for measuring and weighing wood materials accurately.		1 Nos
32	Wood Screw 0.5", 1", 1.2", 1.5", 2", 2.5", 3"	Assorted wood screws made of durable steel. Various sizes for different woodwork and carpentry needs.		2 box each
33	SS Screw 0.5", 1", 1.2", 1.5", 2", 2.5", 3"	Stainless steel screws with corrosion resistance. Various sizes for woodwork and carpentry in various environments.		2 box each
34	Sand Paper Roll	Assorted grits (80, 100, 150) of sandpaper rolls for smoothing and prepping wood surfaces before finishing.		1 each
35	Gel Drum Mixture	Gelcoat mixing equipment for preparing gelcoat in proper consistency and color for boat exterior finishing.		1 Nos
36	220V Electric Trimmer	Electric trimmers with 220V voltage and variable speed settings for detailed woodworking and wood edge profiling.		2 Nos
37	Transparent Tube Water Level Hose Pipe	Transparent tube hose pipe for accurate water leveling measurements, crucial for maintaining proper alignment in woodwork.		1 roll
38	Hydraulic Bottle Jack 5 ton	Heavy-duty hydraulic bottle jack with a 5-ton lifting capacity. Designed for lifting heavy wooden components securely.		1 Nos
39	Drill Bit Set for Metal and Wood	Comprehensive drill bit sets with various sizes for metal and wood. Ideal for precise drilling in woodwork.		2 each

40	Socket Set	Comprehensive socket set with various sizes for assembly and maintenance tasks in woodwork.		1 Nos
41	Wrench Set	Comprehensive wrench set with various sizes for assembly and maintenance tasks in woodwork.		1 Nos
42	Adjustable Wrench 8 inch, 12 inch, 18 inch	High-quality adjustable wrenches with ergonomic handles. Designed for versatile use in woodwork and carpentry.		3 each
43	Pipe Wrench 12 inch, 18 inch, 24 inch	Heavy-duty pipe wrenches with adjustable jaws. Suitable for gripping wooden pipes and cylindrical objects in woodwork.		1 each
44	Hole Saw Set 19 to 127 mm	Comprehensive hole saw set with various sizes for cutting holes in wooden components.		1 Nos
45	Pocket Tape	Compact pocket-sized tape measures with metric and imperial measurements. Ideal for quick measurements in woodwork.		10 Nos
46	NT Cutter	Precision NT cutters with replaceable blades. Used for precise cutting and trimming of materials in woodwork.		10 Nos
47	Blade Cutter	Pack of replacement blades for NT cutters. Ensures continuous cutting performance during woodwork.		10 pack
48	Paint Brush 1", 1.5", 2", 2.5", 3"	High-quality paint brushes with various widths for applying finishes and coatings to wood surfaces.		10 each
49	Roller Brush 4 inch	Pack of disposable 4-inch roller brushes for applying paint and finishes to large wood surfaces.		100 pack

50	Steel Wire Brush	Sturdy steel wire brushes for removing rust, paint, and debris from wood surfaces before refinishing.		10 Nos
51	Roller Brush 7 inch	Durable 7-inch roller brushes for applying paint, varnish, and finishes to wood components.		30 Nos
52	Polypropylene Rope 18mm	Strong and durable polypropylene rope with an 18mm diameter. Used for various securing and lifting applications in woodwork.		1 coil
53	Flexible Cable 2.5mm 3 Core	Roll of flexible 3-core cable with 2.5mm diameter. Suitable for wiring and electrical connections in woodworking systems.		2 roll
54	Electric Tester	Multi-function electric tester for checking voltage, continuity, and electrical connections in woodworking systems.		5 Nos
55	Socket Outlet	Standard socket outlets for electrical installations in woodwork and carpentry projects.		10 pcs
56	Plug	Standard plugs for electrical installations in woodwork and carpentry projects.		10 pcs
57	Screwdriver Set	Comprehensive screwdriver sets with various types and sizes for assembly and maintenance tasks in woodwork.		2 set
58	Plier Set	Comprehensive plier sets with various types and sizes for assembly and maintenance tasks in woodwork.		2 set

59	Jetech Ratcheting PVC Pipe Cutter	Ratcheting PVC pipe cutter for clean and precise cuts in PVC pipes used in woodworking plumbing systems.		2 pcs
60	Crimping Pliers	Heavy-duty crimping pliers for creating secure electrical connections in woodwork and carpentry wiring systems.		2 pcs
61	Southwire Tools	Specialty tools for working with electrical wiring and systems in woodwork and carpentry projects.		2 Nos
62	Bench Grinder 6"	6-inch bench grinder with adjustable speed and grinding wheels. Suitable for sharpening woodworking tools and blades.		1 Nos
63	Tig Weld AC/DC Welding Machine	TIG welder with both AC and DC modes for precise welding of wooden components in woodwork and carpentry.		1 Nos
64	Metal Cut Off	Corded metal cut-off tool with adjustable guard and powerful motor for cutting metal components in woodwork.		1 Nos
65	Corded Sliding Compound Miter Saw 10 inch	10-inch sliding compound miter saw with adjustable bevel and miter angles for precise cuts in woodwork and carpentry.		1 Nos
66	Tube Bender	Manual tube bender for shaping metal tubes used in woodworking plumbing and structural systems.		1 Nos
67	Gelcoat Spray Unit	Professional gelcoat spray unit for applying gelcoat to wood exteriors for a smooth and protective finish.		1 Nos

68	Block Plane	Block planes with adjustable blades for smoothing and shaping wooden components, especially in tight spaces.		10 pcs
69	Nail Puller	Heavy-duty nail puller for removing nails and fasteners from wood components without damaging the wood.		1 Nos
70	Steel Claw	Steel claw tool for removing fasteners, staples, and other materials from wood surfaces.		1 Nos
71	Piece Allen Key Set	Comprehensive set of Allen keys for assembling wooden components with hexagonal socket screws.		1 Nos
72	Resin Quality Checking Tool	Tool for assessing the quality and consistency of resins and adhesives used in wood lamination and construction.	-	1 Nos
73	Fiber Laminating Checking Tool	Tool for checking the even distribution and adhesion of fiberglass layers during lamination in woodworking.	-	1 Nos
74	Gelcoat Thickness Checking Tool	Tool for measuring and verifying the thickness of gelcoat applied to wood exteriors for optimal protection and finish.	-	1 Nos
75	Polyester Resin tester	HPE II Barcol - Hardness measuring on fiberglass reinforced plastics, hard thermoplastics, aluminum		1 Nos
76	Polyester resin quality tester cup	Viscosity Flow Cup – Frikmar Dip Cup		1 Nos
