#	Queries	Answer
1	Kindly clarify if we are required to submit a separate EoI for each package.	EoI should be submitted for each interested package. If a consultant is interested in all 4 packages, they should submit one EoI for each package
2	We also notice that the team requirements mostly reflect experience in water and sewerage projects and there is no mention of harbor experience (except for the PM). If we are to submit separate EoI's for the packages would the team requirement remain the same?	For packages 3 and 4, the proposed Civil Engineer must have 05 years of experience in design and / or construction of harbours in Maldives
