Ministry of Finance

Project Name: Consulting Services for Topographic surveys and Land Use Plans (LUP) in 43 Islands

Project Number: TES/2021/C-003

Clarification 1

Sl. No.	#	Queries
1.	Clause 2.1 a) states “Experience in Engineering Consultancy services. Consultant must have successfully/substantially completed at least 03 Engineering Consultancy Projects in the last 10 years.” Since this is a survey and land use planning bid, why is only experience in engineering consultancy counted? This is also contradicting clause 4.6 which states “To be eligible for this assignment, the Consultant must have successfully/substantially completed at least 02 Survey projects in the last 10 Years.”	The mentioned point 2.1 and 4.6 were highlighted red in the initial document sent for removal as they were part of the initial sample tender document as communicated earlier. I have attached the initial document sent for your referral
2.	The ToR title is “Project Management Consultancy Services for Water Supply and Sewerage Projects, Maldives”.	The ToR title is Revised “Consultancy Services for Topographic Survey and Land Use Plan”
3.	Is the work commissioning mentioned in the scope of work a mistake?	Commissioning is not in scope of Work
4.	Clause 4.7: mentions the submission of technical and financial proposal. This was advertised as an EOI in the iulaan. Could you please clarify which it is? 1. If this is an EOI please clarify if we would require to submit the following documents mentioned in the clause 4.7 a. Technical Approach, Methodology and Work plan and work schedule 2. Do the educational certificates need to be attested or accredited certificates would do? 3. Do we need to submit	1. It is a TOR. (a) Technical Approach, Methodology and Work plan and work schedule are required. 2. Educational certificates needs to be attested. 3. Consultant can submit CV for Individual experts.
5	The deliverables mentioned in clause 4.9 are not relevant for this project	The actual deliverables and outputs are mentioned under 4.4.2 Specific Scope heading "Works commissioning".

6	Annex 6 is not attached with the TOR	Attached with this Clarification
7	Can the same urban land use planning specialist and chief surveyor be used for all 7 lots?	Maximum number of packages which will be award to a single party / consultant is 3.
8	For the surveyors, can we use foreign surveyors who are registered in their national professional bodies as surveyors? In Maldives, there are very few surveyors of whom most are tied up with ongoing projects. Therefore, it will be more feasible if you would allow us to use foreign professionally registered surveyors.	Chief Surveyor and Surveyor should be registered in Maldives land Survey Authority, Ministry of National Planning, Housing and Infrastructure.
9	Environmental Specialist and Socio/cultural specialist has a very minimum input requirement to this Project. Therefore, could you change the requirement to be able to use them in more than 1 package?	Maximum number of packages which will be award to a single party / consultant is 3, meaning the Environmental Specialist and Socio/cultural specialist can be common in three packages.
10	Please clarify how many packages each of the following consultants can apply for: Environmental Specialist Social/Cultural Specialist Surveyor Assistant Surveyors	For all of the mentioned consultants, the maximum packages is three
