CLARIFICATION 01

#	Document Name	Document Reference (Section no/page no etc)	Query	Response
1			I would like to request for further information on the R. Vandhoo waste management project regarding the per day shredding capacity of the shredder required.	40 tons/day
2			We are an international company, who doesn't have an office in Maldives and yes, we would be using a local contractor to carry out all the works required, and could you confirm if we are liable for the GST or local taxes so we could quote you accordingly.	Bidders should visit https://mira.gov.mv/ and confirm with the relevant authority to confirm the taxes they are applicable for. Custom duty shall be exempted and the Employer will assist in providing a letter of exemption for the goods brought in from abroad.
3			Section 6 - Purchaser's Requirements, 1. Scope of Supply of Goods and Services. The scope of the Contract is the Supply and Installation of a Waste sorting line with sieving machine at Vandhoo, Raa Atoll, including all kind of required civil foundation works for all machineries & equipment., excluding other civil works like structures main building ,halls, storage building, building foundations, steel structures, supply, all necessary temporary structures for site development, in compliance with the land development and construction conditions, Buildings, annexes, engineering networks. The construction will be made on the basis of the approved Working Design. After the contract award and upon approval working design could you confirm how many days the civil work would take to be completed.	Scope of the contract is as mentioned in the Purchaser's requirement: Supply and Installation of a Waste sorting line with sieving machine at Vandhoo, Raa Atoll, including all kind of required civil foundation works for all machineries & equipment Please note that all other civil works for the buildings are complete with an existing ground slab of 100mm. Any additional civil foundation works for machineries and equipment should be done above the existing ground slab and are under the scope of the bidder therefore should be quoted in the bid.
4			The main components, water content, and current particle size of the waste	Refer to 'Scope of Supply of Goods and Services' under Section 6 - Purchaser's Requirement, for the composition of waste. Bidders to use average MSW Waste sizes as a reference to current particle size

Handwritten signature/initials

5		What particle size does the waste need to be crushed into, and how many tons per hour to process	Refer to (2.) Specification of Shredder mentioned under Section 6 -Purchaser's requirement. Output feedstock requirement: <100mm Throughput requirement: Controllable/Variable throughput of min 1.5 TPH - max 2.0 TPH
6		The feeding method to be adopted: how the material is grabbed and conveyed before being conveyed into the trommel screen	Currently it is planned to use a wheel loader to feed waste into the trommel
7		Site visit and discuss technical requirements	Employer shall facilitate the Site visit provided the cost of travel and expenses to be borne by Contractor and obtain for itself on its own responsibility all the information that may be necessary for preparing the bid as per ITB 7.2. Any technical requirement clarification to be forwarded to the purchaser in writing at the purchaser's address indicated in the BDS, as per ITB 7.1.
8		If we quote CIF value how we doing custom clearance? finance department can be handle custom clearance or not	Refer to Section 2 - BDS [ITB 18.4(a)(i)] - The incoterm for quoting goods to be supplied from abroad is DAP Vandhoo/Raa Atoll. The custom duty shall be exempted and the Employer will assist in providing a letter of exemption for the goods, however other taxes are payable by the contractor
9		Do we need local Maldives agent to proceed tender or directly can we handle it?	This is an International Competitive Bidding (ICB) open to all bidders. However, international bidders shall be responsible to ensure that they confirm with required registration under Foreign Investment Registration and Foreign Direct Investment Policy requirements of Maldives prior to bid submission.
10		If send items from our country what is the destination port?	Refer to Section 2 - BDS [ITB 18.4(a)(i)] - The incoterm for quoting goods to be supplied from abroad is DAP Vandhoo/Raa Atoll.
11		If destination port in another island how we deliver to site	Bidders must find their own means of transport for the delivery to site.
12		If we purchase some materials from local market what is the possibilities	Bidders are welcome to source materials locally.

13			We need to know the purpose of table of adjustment at bidding documents	Amendment to SCC11.2 to be made as follows: SCC 11.2 The Contract Price shall be fixed
14			Finance ministry is possible to open LC if we awarded the tender or which methods you suggesting to send goods here.	Payments terms are stated in Section 9 of the Bidding Document.
15			Waste Processing capacity (t/d).	40 tons/day
16			Garbage moisture content.	Refer to 'Scope of Supply of Goods and Services' under Section 6 - Purchaser's Requirement, for the composition of waste.
17			Provide site layout drawing (CAD version), which is convenient for us to layout equipment.	Please note that the draft drawings attached is just a concept, where the bidder has to design their own offer as per the available space.
18			Existing incinerator, it is continuous type or batch type?	Continuous type
