1		We are seeking your assistance in obtaining confirmation on the tariff details for BESS systems & certain goods, as this information is not provided in the current customs data available to us. We would greatly appreciate any help or guidance you can offer in obtaining the necessary information from the relevant authorities.	Duty will be exempted for this project and the process will be facilitated for the winning bidder by MoCCEE.
2		We still require clarification on the quantity and capacity of Battery Energy Storage Systems (BESS) needed for the two specific islands. Any insights you can provide would be immensely helpful for our planning purposes.	Kindly see response provided for Query 6 in Clarification 1.
3	FEM	Contact Points for Site Visits: It's imperative that we receive the necessary contact information to facilitate smooth organization and coordination of our site visits.
