Clarification 1
Medical Equipment, Furniture & Tools – S. Hithadhoo Regional Hospital Project

No	Queries	Answers
1	<p>Lot 1 This lot is said to include machinery & medical equipment.</p> <ul style="list-style-type: none"> • This will include machineries and equipment from different manufacturers and of different specialties. • As you are aware, different specialties of medical products are manufactured and locally (or nationally) distributed by different companies. Since these machines / equipment are subjected to warranty and needs installation from respective manufacturer representatives, it is almost impossible that all machines / equipment to be sold by one single company / distributor / manufacturer. • This lot has range of items from laboratory equipment, OT machineries, Urology, General Surgery and Orthopaedic Surgery, Endoscopy, Blood bank and etc. These items are quite of a wide range and CANNOT be sold by single entity. <p>Lot 2 This lot is said to include medical furniture and tools.</p> <ul style="list-style-type: none"> • This too is quite similar to Lot 1. Medical furniture and tools are quite different and could only be available with different suppliers. <p>Suggestion: Like in other countries, tender could be awarded in line by line basis to party who gets highest point to respective item. Bid security could be set for the total value of the quote.</p>	<p>The Employer seeking for a single supplier who can supply different machineries and equipment from different manufactures for the specific Lots.</p>
2	<p>Refer to you tender (IUL)13-K/13/2017/168, description of goods in the information sheet is same. In every sheet it mention the departments. As per your information we are not sure which equipment's required for you. Each department have their own specialty and equipment's are differ. Please specify the equipment's required for each departments.</p> <p>Do we have to submit tender for all the areas fully or can we submit tender for department wise or equipment wise? By knowing the equipment only we will be able to submit for pre-qualification as the tender can be complete with joint venture.</p>	<p>This is a pre-qualification stage for suppliers for the equipment required for a full-fledge tertiary hospital. The pre-qualified bidders will be issued a Request for Proposal (Tender Document) which will have detailed list of equipment and other tools, with specifications and quantities.</p> <p>Bidders can submit bids for each Lot separately or for all Lots together. Evaluation will be carried out for each lot separately.</p>

<p>Even I request to extend pre-qualification submission as within the period you have it is not sufficient to submit. Information required are missing.</p>	<p>The date for submission of pre-qualification cannot be extended.</p>
<p>3 We seek clarification on the following points:</p> <p>1. Clause 24.2: Sub-Contractors: The Employer may decide to permit subcontracting for certain specialized works or services as indicated in Section III 4.2, Experience. The Employer may do so at its own initiative or at the request of the Applicants during the prequalification process (if justified). When subcontracting is permitted by the Employer, the specialized sub-contractors experience shall be considered for evaluation. Section III describes the qualification criteria for subcontractors.</p> <p>Referring to the above, could you please confirm the following;</p> <p>a) Could the Applicant be permitted to subcontract works such as local administration, logistics, et cetera under this project? And if so, what would be the eligibility criteria for Subcontractors?</p> <p>b) With reference to the above query and with regards to Experience criteria, 4.2 (a) of all three documents sets states "(ii) For the following specialized Goods and Services, the Employer permits specialized sub-contractors as per ITA 24.2" - Installation, Testing and Commissioning of Medical Plants & Equipment. Since Lot 2 and Lot 3 are for the procurement of medical furniture and tools and office furniture and accessories respectively, does subcontractors for these separate components still require to have 'installation, testing and commissioning of medical plant & equipment' contract management experience?</p>	<p>Applicants can subcontract to other vendors, but employer / client contract will be only with the successful bidder</p> <p>Applicants can only subcontract specialized works or services.</p> <p>Clause 4.2 (a) (ii) of Lot-1 to be amended as follows:</p> <p>(ii) For the following specialized Goods and Services, the Employer permits specialized sub-contractors as per ITA 24.2"</p> <p>(i) Installation, Testing and Commissioning of major equipment such as MRI, CT Scan, X-Rays, Etc.</p> <p>Clause 4.2 (a) (ii) of Lot-2 and Lot-3 is not applicable.</p> <p>Clause 4.2 (a) (ii) is not applicable for subcontractors in Lot-2 and Lot-3.</p>
<p>Kindly please clarify Section III: Financial Situation & performance , regarding the Average Annual turnover (Eligibility and qualification criteria – Section 3.2) if we can include 2017 turnover stated in our management audit, since you have mentioned that average annual turnover calculation can include payments received for contracts in progress.</p>	<p>A management audit can be accepted if the audit is done by Certified, Independent and Registered auditor.</p>
