Republic of Maldives

Project Background

The purpose of developing the Treasury Building is to address the main problems facing the surrounding communities and to provide the office space for Government and public institutions. The estimated office spaces of (300,000 sqft) from the Treasury Building will give a solution to minimize the high rent for office space from private people. Moreover this office complex will provide multinational food courts, open elevated garden for meetings with open cafés. The roof top garden restaurant and elevated garden is equipped with ATM and vending machine. The commercially sellable area is approximately 75,000sqft, including shopping area, Gyms, recreation areas, meeting rooms and seminar halls.

The design concept is to incorporate maximum passive features and minimize the Co2 emission from this project. The project is aiming to achieve minimum of 30% renewable energy for the operation of this office complex. The structure of steel and glass features is complemented by lush greenery and other natural elements to make for an impressive working space. The basement car parking of 24,000 sqft(approximately 85 car & 500 motorbikes) will give a reasonable solution for the surrounding parking problems and the current traffic issues facing the locals.

Scope of Works

The project requires to Develop a 15 storey, Steel and Glass Multi- Office Complex covering a land area of 32,500 sq.ft.
