➢ **Please find below the response to the queries raised.**

Contractor Comment	**Response/Reference Document**
1. Could you kindly clarify the reason for the sudden changes made to the vessel measurements, especially when none of the bid participants have raised any queries regarding the vessel's length or beam?	The technical specifications were revised based on internal review and client's requirement.
2. Could you also explain why a range has been provided for the vessel's length while the beam has been specified as a fixed value? Furthermore, we would appreciate clarification on why the vessel's height has now been included?	**Refer to Addendum 5.**
3. Could you clarify the reason for the frequent and significant changes to the technical requirements?	The revisions were made due to changes in the client's requirements and based on the queries received from bidders.
